Mac Firmware for DDJ-ERGO – CHANGE HISTORY

Ver. 1.41 (22 May, 2014 Update)
- ✓ Added the process of changing the bitrate of DDJ-ERGO as USB audio device from 16 bit to 24 bit.
  This change is needed because we have identified that only 16-bit is available on DDJ-ERGO even after the firmware Ver.9.41 exclusively for iOS7 is updated to Ver.1.40.

Ver. 1.40 (7 May, 2013 Release)
- ✓ Supporting djay for iPad / vjay for iPad.

Ver. 1.30 (18 December, 2012 Release)
- ✓ Fixed an issue unexpectedly large sound may be output from DDJ-ERGO with Serato DJ 1.1
  *Please use with Serato DJ 1.1.1 or later.

Ver. 1.20 (5 April, 2012 Update)
- ✓ Improved a sync process issue when DJ software starts up.

Ver. 1.10 (1 November, 2011 Update)
- ✓ Supporting TRAKTOR PRO 2/DUO 2.
